Vineyard:

A mild climate (due to the Atlantic Ocean). Lots of sunshine and regular rain. The hillside situation and the clay, limestone & gravelled soil offer the best conditions for the growth of the vines and the grapes.

Vinification:

Direct soft pressing. Vinified in thermo-regulated stainless steel vats.

Terroir:

Clayey-calcareous

Training system:

The vines are held up by Guyot double wire training system (Bordeaux style) to obtain the best maturity and also to avoid phytosanitary diseases.

Tasting Notes:

Dark pink coral color. Aromas of fresh sliced red pepper, ash, and cherry cola with an crisp, dryish light-to-medium body and a refreshing, medium-long watermelon rind and cherry skin finish with dusty, fine, fruit tannins and no oak. A highbrow rosé with interesting earthy character.
