

## Biokult Biodynamic 90 Point Wines of Austria

Our newest vintages of two Biokult Biodynamic wines are 90 point wines of of Austria-and more!  
Both of these wines are perfect for year-round enjoyment, and hit all the marks as [Natural Wines](#) that taste great and are great for the planet.

The August issue of *Wine Enthusiast* features our newest [Biokult Naken Orange Wine](#) with an outstanding 92 Points and Editor’s Choice designation:

**92** Biokult 2019 Naken Made With Organic Grapes Pinot Gris-Muskateller (Burgenland). Pink-hued and funky, this skin-contact orange wine brims with clementine and orange peel notes on the nose, supported by an overtone of honeysuckle. The light palate has a texture reminiscent of citrus pith and tingles with freshness, while clementine and white pepper notes are highlighted by the bone-dry nature. It is compelling and wonderfully light. Natural Merchants, Inc. *Editors’ Choice*. —A.K.  
abv: 10.5% **Price: \$20**

is 90% Pinot Gris and 10% Muskateller. Naken is a high-quality, hand-crafted organic and [Biodynamic orange wine](#), vinified by [female winemaker Angela Michlits](#) and her husband Werner.

Following historic traditions, the grapes are processed as they would be for red wine, fermented on the skins for 5-10 days. The result is a beautiful and delicate orange-rosé color with a higher concentration of tannins and structure along with a creamy body style. The wine’s tart acidity and bright citrus flavors combine for an energetic glass dripping with juicy grape goodness. The wine’s acidity works alongside lighter entrees, while its tannic structure stands up to bolder dishes.

Biokult follows low intervention principals in wine making, with spontaneous fermentation from indigenous yeast and natural malolactic fermentation. The wine has a small content of CO2 remaining after fermentation that keeps the wine fresh and adds a slight natural effervescence to the wine that also protects against aging. Naken is sealed with a crown cap to keep in the natural goodness. This wine is unfiltered and may contain natural sediments. At 10.5% ABV, Naken is quite quaffable and a perfect match for a sunny day or a great meal with friends.

Naken (the word for naked in Swedish, referring to Biokult’s “naked” production methods for the wine)

- [Dry farmed](#) wine without any irrigation
- Natural wine with low content of SO2
- [Vegan friendly](#)-produced without any animal byproducts
- Wild yeast fermentation – no inoculation
- Without filtration, can contain slight deposit of sediments and/or crystals
- No additions, no treatments
- 0 bar pressure (no bubbles)-slight natural CO2 from fermentation

The beautiful [Biokult Zweigelt Rosé](#) also caught the attention of *Wine Enthusiast*, which also made it a 90 Point wine of Austria and a Best Buy:

**BEST BUYS**

**90** Biokult 2019 Made With Organic Grapes Zweigelt Rosé (Burgenland). Ripe strawberry, lemon and pepper make for a most appetizing nose. The light-bodied palate emphasizes the citrus freshness as well as the spicy berry roundness and comes to a fresh, dry finish. Natural Merchants, Inc. **Best Buy.** —A.K. **abv: 11%** **Price: \$15**

Made with Organically Grown Grapes

**WINEENTHUSIAST 90** points  
BEST BUY

**biokult zweigelt rosé**

Fresh citrus notes make this beautiful rosé smell like a zesty white wine. The palate, however, adds the fresh delight of ripe strawberry fruit. This adds up to a refreshing, superdry and elegant but fruitful pink summer wine.

[Biokult's Zweigelt Rosé](#) is made of 100% Zweigelt, a red grape variety originating from a 19th century Austrian crossing of the **Blaufrankisch grape** and **Saint Laurent grape** and has reached cult status in recent years. Though this grape is popular and prevalent throughout Austria, the very best grapes come from Burgenland where the Biokult Rosé is produced. The wine is fantastic paired with salads, seafood, fish, noodles, rice, poultry and light white meat dishes. The wine is [Sugar Free](#) under 1g/l of sugar, [Dry Farmed](#) without the use of irrigation, [vegan friendly](#) and [Demeter Certified Biodynamic](#).

**Biokult Biodynamic 90 Point Wines of Austria**

Produced in partnership with three small family owned vineyards, the wines are a unique creative project of our winery partner [Biokult](#), in the Burgenland region of Austria. All Biokult vintners are obliged to [certified organic production](#), environmental protection, biodiversity, and the promotion of healthy soils in their vineyards. Abstinence from artificial fertilizers and stabilizers guarantee unadulterated enjoyment.

[Biokult wines are also Demeter certified Biodynamic](#). Biodynamic farming works in harmony with natural ecosystems to preserve and protect life's diversity and species for future generations. **Biodynamic methods develop the vineyard's greatest potential**. Healthier soil produces outstanding quality grapes and their resulting wines capture the true essence of the winery's terroir, creating a "taste of place," and a delightful glass of wine.

Both 90 point wines of Austria are available for distribution nationwide, and can be found at select retailers and restaurants across the country.
