A Note from Organic Wine Cruise Coordinators Food & Wine Trails

We are excited to bring you a cruise offering from Natural Merchants and Frey Vineyards.

"In previous years when it came to searching for (and finding) high quality organic wines, you were pretty much out of luck. Thankfully, along came **Frey Vineyards** – America's first organic & Biodynamic winery. Founded in 1980, Frey Vineyards is overseen by Jonathan & Katrina Frey. This third generation, family-owned and operated winery combine the best of modern and traditional winemaking methods to showcase their quality and award-winning vegan, gluten free wines without adding sulfites which can cause adverse allergic reactions in some people.

Adding to this Mediterranean cruise theme of organic wines, Frey Vineyards has teamed up with the leading importer of high-quality natural wines – **Natural Merchants**. Partners, Ed & Pilar, search the globe for the finest organic grown wines, Biodynamic and vegan wines from the Europe and South America, bringing them to the states for all to enjoy.

You're invited to meet, sail, and raise an *organic* glass of wine with Frey Vineyards & Natural Merchants aboard Oceania Cruises' NAUTICA as they sail icon ports throughout Italy, France and Spain."
